

# VOODOO LAB

## GCX Worksheet

### Wireless, Pedals, 3 Channel Amp Switching

This setup has a wireless unit and noise gate which are routed directly to the rear of the GCX's first loop. It also has 3 pedals running in front of the amp while using the rest of the GCX to switch the amp's channels and FX loop.

Notes:

- |         |                          |         |                         |
|---------|--------------------------|---------|-------------------------|
| Loop #1 | <u>CHORUS ON/OFF</u>     | Loop #5 | <u>CHANNEL 2 SELECT</u> |
| Loop #2 | <u>DISTORTION ON/OFF</u> | Loop #6 | <u>CHANNEL 2 SELECT</u> |
| Loop #3 | <u>COMPRESSOR ON/OFF</u> | Loop #7 | <u>CHANNEL 3 SELECT</u> |
| Loop #4 | _____                    | Loop #8 | <u>FX LOOP ON/OFF</u>   |
