Dingbat® Large Pedalboard Power Package w/ Pedal Power® MONDO

DINGBAT® SERIES OVERVIEW

Designed for seamless integration with industry-standard Voodoo Lab® Pedal Power®, the innovative patented Dingbat pedalboard delivers a rugged, lightweight platform for organizing pedals and keeping cables neatly tucked away and out of view. Each Dingbat is crafted in the USA from superior 6061-T6 aircraft-grade aluminum and includes a heavy-duty tour-ready gig bag.

PRODUCT OVERVIEW

Dingbat® Large is ideal for organizing a robust collection of 10 to 16 effects and includes a factory-installed Pedal Power® MONDO with all necessary power cables. The Dingbat Large pedalboard also features a dedicated position for a second Pedal Power that can be quickly installed with optional mounting brackets if more power is needed. Hook-and-loop tape is provided to attach pedals, as well as zip ties and 4-way tie mounts to secure cabling underneath.

POWER SUPPLY

Pedal Power® MONDO is a high current monster designed to power the largest and most diverse pedalboards. From digital power-hungry effects from Strymon, Eventide, Line 6, TC Electronic and more—plus compatibility with all standard 9-volt battery stompboxes—MONDO is perfect for large to gigantic pedalboards. With 12 completely isolated, filtered, and regulated output sections, MONDO will keep your pedals dead quiet and sounding their best. 9V, 12V, high current, MONDO does it all. Combine isolated outputs with Voodoo Lab Doubler Cables for 18V or 24V operation or to reach currents of up to 800mA (cables sold separately). MONDO also includes a SAG feature to simulate a low battery effect and a handy 200-Watt courtesy outlet for powering additional devices like multi-effect units or wireless systems.

GIG BAG

Each Dingbat Large pedalboard includes a heavy-duty tour grade padded gig bag featuring shoulder and backpack straps for easy transportation and premium materials, like YKK zipper hardware, to ensure long-lasting protection for your board and pedals.
