

Product Profile

Dingbat® PX Pedalboard with PX-8 PLUS Pedal Switcher

DINGBAT® SERIES OVERVIEW

Designed for seamless integration with industry-standard Voodoo Lab® Pedal Power®, the innovative patented Dingbat pedalboard delivers a rugged, lightweight platform for organizing pedals and keeping cables neatly tucked away and out of view. Each Dingbat is crafted in the USA from superior 6061-T6 aircraft-grade aluminum and includes a heavy-duty tour-ready gig bag.

PRODUCT OVERVIEW

The Dingbat® PX pedalboard includes onboard true bypass pedal switching for managing and optimizing the performance of your effects. Its innovative patented design places the switcher beneath the foot of the board keeping all cabling neatly out of view and preserving maximum space for pedals. Installing Pedal Power® with the included mounting hardware is quick and easy using only a screwdriver. Dingbat PX also features a dedicated position for a second Pedal Power that can be quickly installed with optional mounting brackets if more power is needed. Hook-and-loop tape is provided to attach pedals, as well as zip ties and 4-way tie mounts to secure cabling underneath.

INTEGRATED TRUE BYPASS PEDAL SWITCHING

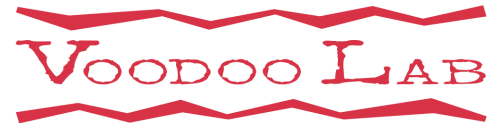

Dingbat PX features an onboard PX-8 PLUS pedal switcher equipped with 8 true-bypass audio loops and 8 premium quality silent-operation footswitches. Simple and intuitive programming allows instant access to 36 user-created preset loop combinations at the touch of a single button. PX-8 PLUS can also function as a simple strip to turn on and off individual loops. In addition to the 8 audio loops, PX-8 PLUS includes a loop insert point between loops 6 and 7. This insert point is ideal for placing a volume pedal or other audio device into the signal path.

POWER PACKAGES

Dingbat Power Packages offer the convenience of a factory-installed Voodoo Lab power supply. Dingbat PX is available with a 12 isolated output Pedal Power 3 PLUS. All Voodoo Lab power supplies are made in the U.S.A., feature completely isolated outputs and audiophile-quality performance.

GIG BAG

Each Dingbat PX pedalboard includes a heavy-duty tour grade padded gig bag featuring shoulder and backpack straps for easy transportation and premium materials, like YKK zipper hardware, to ensure long-lasting protection for your board and pedals.

Product Profile

Dingbat® PX Pedalboard with PX-8 PLUS Pedal Switcher
