

Product Profile

Dingbat® SMALL Power Package with Pedal Power® 2 PLUS

DINGBAT® SERIES OVERVIEW

Designed for seamless integration with industry-standard Voodoo Lab® Pedal Power®, the innovative patented Dingbat pedalboard delivers a rugged, lightweight platform for organizing pedals and keeping cables neatly tucked away and out of view. Each Dingbat is crafted from superior 6061-T6 aircraft-grade aluminum and includes a heavy-duty tour-ready soft case.

PRODUCT OVERVIEW

The Dingbat® Small 2 PLUS Power Package is ideal for assembling a compact and lightweight board with 5 or 6 essential effects and includes a factory-installed Pedal Power® 2 PLUS with all necessary power cables. Hook-and-loop tape is provided to attach pedals, as well as zip ties and 4-way tie mounts to secure cabling underneath.

POWER SUPPLY

Pedal Power® 2 PLUS—the industry standard guitar effect power supply—is equipped with 8 noise-free isolated 9V outputs that will bring out the best tone and performance from your pedals. With switchable 12V options and two 250mA outputs, this super versatile supply can power virtually any standard battery-operated or DSP effect. Combine isolated outputs with Voodoo Lab Doubler Cables for 18V or 24V operation or to reach currents of up to 500mA (cables sold separately). PP2 PLUS also includes a SAG feature to simulate a low battery effect and a handy 200-Watt courtesy outlet for powering additional devices like multi-effect units or wireless systems.

SOFT CASE

Each Dingbat Small pedalboard includes a heavy-duty tour grade padded soft case featuring a padded shoulder strap for easy transportation and premium materials, like YKK zipper hardware, to ensure long-lasting protection for your board and pedals.

Product Profile

Dingbat® SMALL Power Package with Pedal Power® 2 PLUS
