

Product Profile

Dingbat® TINY Pedalboard

PRODUCT OVERVIEW

DINGBAT® TINY is the ultimate professional travel board for 3 to 4 essential effects. Secured in its included tour-grade soft case, TINY is compact enough to stow easily in the overhead compartment or beneath the forward seat of any aircraft. Combined with a compatible isolated power supply—Pedal Power® X4 or X8—Dingbat TINY becomes a complete pedalboard solution anywhere in the world your music takes you.

ORGANIZE

A key element in executing a flawless performance is a clean, organized pedalboard. Dingbat's innovative patented design helps organize your rig like a pro. All supplies needed for securing pedals and cabling to the board are included.

PROTECT

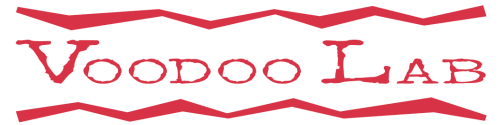

Dingbat TINY includes a heavy-duty tour-grade soft case that meets carry-on requirements for all commercial airlines. No bag checking required. Premium materials and construction ensure superior performance and long-lasting protection for your pedalboard. A removable shoulder strap is included for easy transportation.

POWER

Dingbat Power Packages offer the convenience and added value of a factory-installed Voodoo Lab isolated power supply. Just add pedals and audio cables and you are ready to go. In addition to convenience, a factory-installed Pedal Power ensures any pedal will sound and perform it best. Even under poor AC line conditions, you can always count on Pedal Power to consistently deliver the cleanest most reliable power possible.

Dingbat TINY is available bundle-priced with a factory-installed Voodoo Lab Pedal Power® X4, which is equipped with four 9V high current outs for properly powering both high current DSP and sensitive battery-operated effects with zero added noise. Cables for powering pedals are included.

If more than four isolated outputs are required, the eight 9V output Pedal Power X8 is also compatible with Dingbat TINY and is available to purchase and install separately.

Product Profile
