

Product Profile

Control Switcher

MIDI Amp Commander

PRODUCT OVERVIEW

Add MIDI Automation to Channel Switching Amps!

Switch channels on multiple amps and easily automate any non-MIDI functions with **Control Switcher**. Using a Voodoo Lab Ground Control Pro or any standard MIDI-capable foot controller, Voodoo Lab's Control Switcher gives you instant MIDI programmability for controlling all footswitchable amp functions including channel switching, reverb, boost, EQ, loop and more.

Control Switcher Features 4 completely isolated relays with front panel instant access buttons, separate 1/4" mono outputs and a multi-DIN connector. Runs off a standard 9V power supply and is compact enough to mount behind an amp, inside a rack, or on a pedalboard.
