

Product Profile

Pedal Power® 4X4

PRODUCT CATEGORY OVERVIEW

Great tone begins with clean, isolated power and nothing delivers it better than Voodoo Lab Pedal Power. Designed to meet the needs of professional users, Pedal Power will provide clean, consistent power, even with the poor AC line conditions often found on stage. Completely isolated, filtered, and regulated output sections eliminate ground loops and unwanted interactions between effects, resulting in lower noise and noticeably improved tone. Among artists, guitar techs, and rig builders, Voodoo Lab is the most trusted brand worldwide for reliable, noise-free power. Pedal Power simply makes you sound better.

PRODUCT OVERVIEW

Pedal Power 4X4 is an analog isolated power supply designed to run modern high current effects like Strymon, Eventide, Line 6, TC Electronic and more, as well as standard 9-volt battery stompboxes. Perfect for medium and large pedalboards, Pedal Power 4x4 features 8 completely isolated, filtered, and regulated output sections that will keep your pedals dead quiet and sounding their best.

Pedal Power 4x4 is equipped with an internal thermometer that controls a silent fan keeping the unit cool even under the most adverse heat conditions of outdoor festival stages. Even with poor AC line conditions, it delivers clean, consistent power. Hand-assembled in the USA using the finest components, Pedal Power 4x4 was designed to meet and exceed the needs of our most demanding professional users.

ELEMENTS OF A GREAT POWER SUPPLY

Isolation

Ground loops cause hum and the solution is to break the unwanted ground path. Isolation is the best way to do it. Unlike many power supplies, Pedal Power isolates every output. This eliminates tone-robbing interaction between other effects. Pedal Power runs everything from vintage overdrives to modern digital marvels in a way other power supplies simply can't.

Proprietary Balanced Transformer

Typical transformers, like those used in a wall wart, create large magnetic fields that cause hum in any audio path near it. Pedal Power uses a custom designed, ultra-low noise toroidal transformer with separate balanced windings for every output allowing even the most sensitive pedals to be dead quiet.

Linear Power

What's good for charging a cell phone is NOT good for your pedals. While digital switching power supplies are small and inexpensive, they also generate noise. Pedal Power uses an audiophile quality linear supply for consistently stable, clean, pure power.

PEDAL POWER 4X4 OUTPUTS

9V 400mA Outputs (x2) For powering high current digital effects. Standard battery-powered effects can also be powered using these outputs.

9V/12V 400mA Outputs (x2) Dual port outputs with 9V and 12V options for powering high current digital effects. Standard battery-powered effects can also be powered using these outputs.

9V 100mA Outputs (x4) Outputs for powering effects requiring 100mA or less.

Product Profile

Pedal Power® 4X4

Short Description

Pedal Power 4X4 is an analog isolated power supply designed to run modern high current DSP effects as well as standard 9-volt battery stompboxes. Perfect for medium and large pedalboards, Pedal Power 4x4 features 8 completely isolated, filtered, and regulated output sections that will keep your pedals dead quiet and sounding their best.

FEATURES & BENEFITS

- 8 total isolated outputs
- Four (4) 9V 400mA outputs (2 with 12V option)
- Four (4) 9V 100mA outputs
- All outputs compatible with standard battery-powered pedals
- Linear regulation and toroidal transformer for lowest possible noise
- 18V operation and currents up to 800mA using optional doubler cables
- Temperature-activated cooling Fan
- Includes DC power cable kit and detachable AC line cable
- Product Dimensions: 7" wide x 3.4" deep x 1.87" tall (178 x 86 x 47 mm)
- Product Weight: 2 lbs. (907g)
- Designed and assembled in the U.S.A.
- 5-year warranty*

Model Description: Pedal Power 4X4 High Current Isolated Power Supply

Model Number: P44

UPC: 813140001239

**Warranty for North America only. Other regions contact your country's distributor for warranty info.*
